

## Weather Front Worksheet

1. How many hours have gone by between the two maps?
2. How has the weather changed in Great Falls from Wed. to Thurs.?
3. How has the weather changed in Nashville from Wed. to Thurs.?
4. How has the weather changed in Washington from Wed. to Thurs.?
5. How fast is the cold front moving in the Northwest (in km/hr)? You will want to use a ruler, a calculator and the scale on your maps.
6. On a blank map copy the cities from the other two maps.
7. On that map draw a forecast map for 8pm Friday, July 27. Put in all the fronts, showers, rain, low and high pressure zones.
8. What is your forecast for each of the cities for 8pm Friday?
